The following white paper contains information provided for discussion purposes only to give an overview of the progress of our project called TokenSalePad

ABOUT US

TokenSalePad is there for those who are dreaming of a passive income with Crypto currency. It's possible because of Our Such Massive Events Like Launch Pad, Project Funding, Free Listing Contest, Airdrop/Giveaway Campaign, TSPAD Holder's Rewards, Staking & More Events. On Every Launch pad, Project Funding & Free Listing Contest, In Tax of Some Percentage Of (ABC Project

Token) Will Hold By TokenSalePad Team. This tax Token is then split between all TSPAD Holder's based on token allocation.

TSPAD Token is a deflationary Token created by a team of experts (dev, trader, marketer, economist) and crypto currency specialists that aims to literally change the world. It was made to revolutionize the financial system via an eco friendly platform.

The founders of TokenSalePad are highly experienced and have already demonstrated their focus and diligence on another known project. The team will expand as TokenSalePad grows more, adding community managers, marketing leads, developers and moderators.

Features of TokenSalePad

With these mutual characteristics that we all have in common which we also foster & encourage between all our community members, we have integrated the following features into all our products and the TokenSalePad ecosystem in-order to also help us all achieve our goals and other mutual objectives:

Deflationary Token

In simple terms a deflationary token is basically one that decreases in market supply over time. The more activities users perform on the \$TSPAD ecosystem, the token burn mechanism will keep reducing the available token so therefore as supply decreases and demand increases, the value and price is also expected to grow according too thereby further increase yield & returns for holders and users of the Alt Launch ecosystem.

Dividend Pools

This will allow the holders to stake and earn such as \$BNB and other valuable crypto assets that will be listed on the platform. In addition to Tokensalepad Launchpad product that helps other projects built on binance smart network easily get launched and raise funds, the dividend pools will be similar to Pancake pools and holders get to enjoy high APYs with low risk making it a win-win for every member and users of the TokenSalePad ecosystem.

Your daily lives and let the auto-compounding do it all for you even when you are not available to do it yourself. TSPAD Vault & Auto-Compounding Feature Think of it as one of the most unique feature of the ecosystem.

Imagine if you have to do everything manually, it would be quite stressful right? That's where the \$TSPAD Vault & Auto-compounding feature comes in - It automatically compounds your yields and stores them securely for you so that you wouldn't have to worry too much on missing out on any rewards or returns when you are not available. That way, you can go about.

Problem & Solutions

PROBLEMS

- You want to farm and stake to maximize potential
- You want to earn a passive income and become financially free
- You don't want to lose your rewards on gas fees due to an automatic claiming system
- Beginner & Investors are facing a lost in Malicious/Scams Startup Projects

- Bank Can't Provide funds/Loans for New block chain Startup Or for Project Development.
- Crypto Beginner don't have potential to pay high transaction fees for just a transfer & Swap a Coin/tokens like in Ethereum, Bitcoin Mainnet.

SOLUTIONS

- With TokenSalePad, we give you to farm and stake your tokens with high APR and planned tax free transfers in and out of the farm.
- Join Our Daily & Weekly High Earning Events & Earn TokenSalepad
- TokenSalePad have a Project Security Alert & Project Audit on Website & Our Social Media, Beginner & Investors can take advantage of that before investing.
- TokenSalePad Provide a Fund/Loans to New Startup Project & for Development, Before Funding we analyze a Project & there team.
- Very Soon TokenSalePad Introduce a TSPswap & Own Wallet, Users can Swap & Transfers Coin/Tokens with low transaction fees.

Our Mission

TokenSalePad is striving to help everyday investors to Invest in Such of All Time Best Upcoming Project & Our Launch pad, reach financial independence within our passive income ecosystem.

Everyday Investors are, intimately over \$10 - \$20 million is lost to malicious/Scams projects.

TokenSalePad Provide Scam Alerts & TSPAD Protection On Our Website & Social Media To Our Token Holder's & Community to Secure Your Asset Before Investing & Lost On Malicious/Scams Projects.

Our Analyzing Team Are Expert to analyze Such Like this Projects on Market & Provide a Proofs With Our Community.

Our Products and Services

Airdrop Genarator:

The crypto airdrop is a marketing method employed by startups in the crypto currency space. It involves delivering coins or tokens to the wallets of current crypto currency traders, either for free or in exchange for a small promotional service. The airdrop is meant to spread awareness and increase ownership of the currency startup.

Presale Pool

Cryptocurrency pre-sale pools are growing in popularity. If you are a keen ICO (Initial Coin Offering). If you are a keen ICO (Initial Coin Offering) investor, you will be well aware of that the pre-sale stage of any ICO is where you can get the biggest discounts and largest bonuses. The benefits of getting in at pre-sale stage can be significant and the company behind the ICO uses this tactic to attract the larger investors (whales).

ICO

Initial coin offerings are a popular way to raise funds for products and services usually related to crypto currency. ICOs are similar to initial public offerings, but coins issued in an ICO can also have utility for a software service or product.

TokenSalePad LAUNCHPAD

TSPad aims to help new binance with fund-raising, audits, project incubation, marketing & guidance to boost & enhance project success

Staking & Farming:

Earn profitable returns on investment & enjoy higher APYs by Staking or Farming your crypto assets. Low fees across all DeFi yield farms. Users can earn \$BNB, \$TSPAD & other valuable and high performing listed crypto assets.

TSPAD SWAP

Allows users to easily exchange your tokens and other crypto assets at zero to low gas fees on the TokenSalePad decentralized exchange.

TSPAD NFT

Built for creators & investors. TSPAD NFT Marketplace will allow the buying, selling and auction of rare and valuable digital arts.

TSPAD WALLET & MOBILE APP

Securely store your crypto assets on the TSPAD Wallet. The mobile app will also make it easy to access all features of the TSPAD Ecosystem

TSPAD DApp

Our decentralized application (DApp) contains Swap, Bridge, Farming, Staking, Pool, Audits and Invest Portfolios.
